# Program Overview

- ❖ Students acquire skills and knowledge to work on repair, service and maintenance of pleasure use vessels from 15' to 150' in length.
- ❖ MST workers engage in all aspects of work on vessels including but not limited to: hull repair; painting of wood, metal and composite materials; ship right and joinery work; mast and rigging repairs and retro fits; and on board electrical and plumbing systems.

## The Saanich School District "3 Prong Vision" for any Trade bound Student

1. The student satisfies graduation requirements and successfully graduates.
2. The student successfully completes "Level One" technical training.
3. The student becomes indentured as an official apprentice to a community based employer in a trade of their choice.

## PROGRAM DETAILS

- The MST program is a district program "hosted" at Parkland Secondary during the afternoon blocks (3 & 4) in second semester.
- Students participate in 3 ½ hour seminars 1 night per week at Quadrant Marine Institute for advance technical training as "Level One" Marine Service Technicians (MST).
- Technical training at Quadrant runs from the beginning of September to the end of May, with a 3 week unpaid practicum placement during spring break in March.
- Students should consider taking drafting, joinery & metal work in grades 9, 10 & 11 in preparation for this program.
- Students will ideally have work experience placements in the marine service industry (weekends & school vacations).
- Students should aim to have essential grad courses complete prior to commencement of this program.
- Capable students may choose to work part time mornings in the local marine service industry while participating in the MST program.
